Field Crops Research

Contents of *Field Crops Research,* Volume 37

VOL. 37 NO. 1 — APRIL 1994

Publisher's Note 1

The performance of ecological, integrated and conventional nutrient management systems in cereal cropping in Finland
R.T. Poutala, O. Kuoppamäki (Helsinki, Finland), J. Korva (Quito, Ecuador) and E. Varis (Helsinki, Finland) 3

Genotype × environment interactions in progeny from a barley cross II. Variation in grain yield, yield components and dry matter production among lines with similar times to anthesis
P.A. Jackson (Macknade, Qld., Australia), D.E. Byth (Patancheru, Andhra Pradesh, India), K.S. Fischer (Manila, Philippines) and R.P. Johnston (Warwick, Qld., Australia) 11

Enhanced interpretation of pattern analyses of environments: the use of blocks
J.K. Bull (Bundaberg, Qld., Australia), K.E. Basford, M. Cooper and I.H. DeLacy (Brisbane, Qld., Australia) 25

An approach to the use of multivariate analysis of near infrared spectroscopy (NIR) data from field-trials
E. Nordkvist and K. Larsson (Uppsala, Sweden) 33

Source–sink relationships and grain mass at different positions within the spike in wheat
G.A. Slafer and R. Savin (Parkville, Vic., Australia) 39

Variation in temperate cereals in rainfed environments I. Grain yield, biomass and agronomic characteristics
C. López-Castañeda and R.A. Richards (Canberra, A.C.T., Australia) 51

Variation in temperate cereals in rainfed environments II. Phasic development and growth
C. López-Castañeda and R.A. Richards (Canberra, A.C.T., Australia) 63

Studies on achene germination, transplantability, salinity tolerance, and cultivation of gumweed (*Grindelia camporum*) in hot and semi-arid conditions
S.I. Zafar, W.H. Shah and Zia-Ur-Rehman (Lahore, Pakistan) 77

VOL. 37 NO. 2 — MAY 1994

Yield advantage and competition in intercropped oats (*Avena sativa* L.) and faba bean (*Vicia faba* L.): Application of the hyperbolic yield-density model
J. Helenius (Helsinki, Finland) and K. Jokinen (Espoo, Finland) 85

Influence of water stress on photosynthesis, transpiration, water-use efficiency and yield of *Brassica juncea* L.
A. Kumar, D.P. Singh and P. Singh (Haryana, India) 95

Genotypic variation in moisture response of chickpea grown under line-source sprinklers in a semi-arid tropical environment
C. Johansen, L. Krishnamurthy, N.P. Saxena and S.C. Sethi (Patancheru, Andhra Pradesh, India) 103

Effect of in vitro culture on rust resistance and yield in sugarcane
J.P. Péros, E. Bonnel, D. Roques (Saint Denis, Ile de la Réunion, France) and F. Paulet (Montpellier, France) 113

Effect of leaf maleic hydrazide[1] concentration on yield and dry matter partitioning in burley tobacco (*Nicotiana tabacum* L.)[2]
S.J. Crafts-Brandner, M. Collins, T.G. Sutton and H.R. Burton (Lexington, KY, USA) 121

Effect of maleic hydrazide on photosynthesis, carbohydrate metabolism, and senescence of burley tobacco (*Nicotiana*

tabacum L.)
S.J. Crafts-Brandner and T.G. Sutton (Lexington, KY, USA) 129
Influence of early defoliation on cotton yield, seed quality, and fiber properties
C.E. Snipes (Stoneville, MS, USA) and C.C. Baskin (MS, USA) 137

Book reviews 145

VOL. 37 NO. 3 JUNE 1994

Yield potential in modern wheat varieties: its association with a less competitive ideotype
M.P. Reynolds, E. Acevedo, K.D. Sayre and R.A. Fischer (Mexico D.F., Mexico) 149
Yield and quality of spring triticale used for forage and grain as influenced by sowing date and cutting stage
C. Royo, J.A. Insa (Lleida, Spain), A. Boujenna, J.M. Ramos (Granada, Spain), E. Montesinos (Girona, Spain) and L.F. García del Moral (Granada, Spain) 161
Date of sowing effects on grain yield and yield components of irrigated spring wheat cultivars and relationships with radiation and temperature in Ludhiana, India
J.I. Ortiz-Monasterio R. (Mexico D.F., Mexico), S.S. Dhillon (Ludhiana Punjab, India) and R.A. Fischer (Mexico D.F., Mexico) 169
Wheat seed endosperm utilization under heat stress and its relation to thermotolerance in the autotrophic plant
A. Blum and B. Sinmena (Bet Dagan, Israel) 185
Nitrogen uptake and yield of deepwater rice in the Central Plain of Thailand
D.W. Puckridge, M. Kongchum, P. Thongbai, A. Sattarasart and S. Sinoupakarn (Bangkok, Thailand) 193
Effect of timing and severity of water deficit on four diverse rice cultivars I. Rooting pattern and soil water extraction
J.M. Lilley and S. Fukai (Qld., Australia) 205
Effect of timing and severity of water deficit on four diverse rice cultivars II. Physiological responses to soil water deficit
J.M. Lilley and S. Fukai (Qld., Australia) 215
Effect of timing and severity of water deficit on four diverse rice cultivars III. Phenological development, crop growth and grain yield
J.M. Lilley and S. Fukai (Qld., Australia) 225
Pre-anthesis partitioning of dry matter in sunflower (*Helianthus annuus* L.) crops
N. Trapani, A.J. Hall (Buenos Aires, Argentina) and F.J. Villalobos (Córdoba, Spain) 235
Interactive effect of salinity and *Verticillium albo-atrum* on Verticillium wilt disease severity and yield of two alfalfa cultivars
A.B. Howell, L. Francois and D.C. Erwin (Riverside, CA, USA) 247
Field inoculation of *Setaria italica* with *Azospirillum* spp. in Argentine humid pampas
C.A. Di Ciocco (Luján, Argentina) and E.A. Rodríguez Cáceres (Castelar, Argentina) 253
